### Fundraiser

This year we will be participating in the Original Works fundraiser. The program will give 33% of the proceeds to West Cypress Hills Elementary Art Room. This School Art Fundraising Program will feature students' artwork on shirts, calendars, mugs and much more.

During December, students will be working on original pieces of artwork. Detailed information about this program will come in January.

### Projects

Fifth grade has been learning about ceramics by making a pinch pot. Followed by adding additional pieces using the score and slip technique. Once their pieces were fired, they were able to use different glazes to color their creation. We have some truly creative artist in fifth grade.

Our second project for the semester involved learning about Value. Students were to practice adding value to show depth. We looked at different perspectives of a key to create a unified art piece. This required a ton of patience and hard work. This project has been one of our best!

To wrap up the semester, we drew a Winter Zentangle Tree. This particular project will be used in our Fundraiser, Original Works. These adorable paintings will be available for you to turn into a cup, shirt, necklace, etc. A portion of the proceeds will be given to the West Cypress Hills Art Room. This is a wonderful opportunity for our school.
