### Fundraiser

This year we will be participating in the Original Works fundraiser. The program will give 33% of the proceeds to West Cypress Hills Elementary Art Room. This School Art Fundraising Program will feature students' artwork on shirts, calendars, mugs, and much more.

The week of March 25, students will receive Original Works Packets. Each packet will include a copy of student artwork, product list, and online ordering instructions.

---

### Projects

We completed our Navajo Weavings this semester. Fourth grade students learned about patience, craftsmanship, and design during this project. Each student was responsible for wrapping the warp strings and adding the weft strings. This is a lengthy project but worth the wait!

Next, we drew a cactus in a decorative pot. This particular project is being used for our Original Works Fundraiser. We used watercolor and sharpie to complete this project. Be looking for the Original Works packet when we return from Spring Break.

Finally, we ended the semester learning about radial printmaking. Students created a simple design and embossed the design to a printing plate. Once the printing plate was completed, they used ink and a brayer to make a radial print. This is one of my favorite projects!
