Fundraiser

This year we will be participating in the Original Works fundraiser. The program will give 33% of the proceeds to West Cypress Hills Elementary Art Room. This School Art Fundraising Program will feature students' artwork on shirts, calendars, mugs, and much more.

The week of March 25, students will receive Original Works Packets. Each packet will include a copy of student artwork, product list, and online ordering instructions.

Projects

Second grade has been learning about the artist Vincent Van Gogh and his painting "The Sunflowers". We used glue to draw our flowers, and once it dried we applied chalk pastel for color. They were simply beautiful creations!

Our second project involved Valentines Day and the use of ceramics. Students used scoring and slipping techniques while creating a ceramic heart. We then added paint, wire, and beads to them for the final touches.

To complete the semester, we learned how to make a movable chameleon sculpture. This particular project involved many steps and careful construction. We used construction paper and crayons to decorate our chameleons. Second grade really enjoyed this project.
